# CRAWLER MOUNTED SCREENING PLANT

The Screening Plant is the most economic solution for screening of high-quality defined grain sizes. The screening plant can be operated by one person and is also available with a wireless remote control. All maintenance jobs can be quickly and easily performed, thanks to perfect accessibility.

Prior to transporting, the conveyor belts are moved hydraulically into position so the plant, with its unique, compact dimensions, is ready immediately for transport from one job to the next.

Technical Specifications	SR3000D2	SR4000D3
Throughput (depending on material & mesh sizes)	Upto 250 TPH*	Upto 350 TPH*
Feed material size	Maximum 250 x 250 mm	Maximum 250 x 250 mm
Screen type	Double deck	Three deck
Vibrating screen size	3000 x 1250 mm	4000 x 1500 mm with hydraulically operated telescopic support structure
Feed conveyor	800 x 9000 mm	900 x 10000 mm
Product conveyor 1	600 x 7000 mm hydraulically folded	600 x 7000 mm hydraulically folded
Product conveyor 2		
Product conveyor 3		
Product conveyor 4	-	600 x 7000 mm hydraulically folded
Power Unit (Diesel engine)	43 kW @ 1600 rpm with electrical drive	75 kW @ 1600 rpm
Chassis Unit	Under frame mounted on tracks	Under frame mounted on tracks
Track Width	400 mm	400 mm
Track Gauge	2970 mm approx.	3280 mm approx.
Weight	16 MT approx.	25 MT approx.
Optional Features	Centralized Greasing System Magnet Separator Hydraulic Legs for cleaning purpose	

With Apollo's policy of constant upgradation of products, specifications are subject to change without prior notice. Accessories shown are optional and not a part of standard supply. Technical data are approximate and should be used as a guide only. Capacity and power requirements depend on the type and characteristics of the feed materials.

## Corporate Office :

### GUJARAT APOLLO INDUSTRIES LIMITED

"Parishram" 5-B, Rashmi Society, Near Mithakhali Circle,  
Navrangpura, Ahmedabad - 380009, India.
